Mike

We pulled some info from the RRI. It looks like about 2000 gallons of AFFF available from 2 companies near Houston (LaPorte and Galveston). Their contact info is in the attached. We have not found any alcohol resistant class B foam.

Subject: RE: TDEM Request - URGENT

Good afternoon Captain,

Attached is the report:

HAZMAT Special Services LLC
laporte, TX
Billy Flagel
346-222-7932

T&T Marine Salvage Inc.
Galveston, TX

Jim Elliott
409-692-4611

Those are the only resources listed in the lower U.S. (from Mobile AL to LA/LB). There may be more firefighting resources, but the OSROs have not entered them into the database.

Kelly and Steve

Can you pull up Tx/LA fire fighting companies in RRI.

Please send contact info.

CAPT,

Below FYSA. I suspect the CG isn't a major foam provider, but thought I'd reach out to you to get your thoughts.

It seems that between the EPA and FEMA, suitable fire fighting foam could be obtained.

Pls let me know your thoughts when you have time.

V/r,
Mike Sams

Mr Sams...

Please see the email below from TDEM. I thought that the USCG might have some ideas that might help them out. Let me know if have any possible solutions. Hope all is well. Thanks....Wes Ireland, R6 OPB Chief, 940-232-3842

Kent....

Gisela called me from TDEM asking if we could help her with the following problem:

- She is looking for a source for Alcohol Resistant Class B Foam used for firefighting
- This is to support the Deer Park firefighting effort. They have exhausted the normal sources (including in-state sources) they use and have just purchased 40 totes of the material from a company in Wisconsin; the bottom line is that they have pulled from every non-federal source they can think of

Their question is whether any of the federal agencies have a stock of the material somewhere in the federal inventory or if we know of any vendors that they are unaware of.

Got any ideas? Maybe someone at HQ can help. Can you follow up with Gisela to let her know we are trying to see what we can do.

Thanks...Wes Ireland
